Project Introduction:

LOCAL TRADERS is a first-of-its-kind multilingual P2P platform providing investment and crypto trading solutions for LATAM countries. LocalTraders aims to bring P2P transactions to the LATAM market, which they feel is often shut out of the global.

Project Comments

1. On Oct 23, 2022, a trading pair was created for the first time on the decentralized trading market **Pancakeswap**, and from the market trading situation since its launch, although the transaction depth is not large, the transaction is still very active;

2. It is popular on various social media such as Twitter
3. At present, there are about 4,287 coin holding addresses, and the holding of each address is relatively scattered, and most of the tokens are locked in the liquidity pool
