Telegram: <https://t.me/BlazexCoin>

Project Introduction:

BlazeXDeployerBot serves as an all-in-one tool for deploying Tokens across seven distinct chains. This bot streamlines both pre and post-deployment processes, making contract deployment straightforward. To utilize BlazeXDeployerBot, simply visit: t.me/BlazeXDeployerBot.

Project Comments

1.

It hit the shelves on July 14, 2023 and opened up to its highest point, before continuing lower for a while and starting to pick up recently.

2.

Twitter has 1.5k followers, telegram has a total of 1.2k, and 450+ concurrent online users.

3.

Currently, there are approximately 1734 token-holding addresses, each with a relatively decentralized holding, and a relatively decentralized address.

Top 1,000 holders (From a total of 1,734 holders)
