Project Introduction：

Layerium is The Next Gen Layer 2 Blockchain Scaling any existing EVM Blockchain

Project Comments

1. As a new coin that officially hit the trading market on June 22, 2023, it has been on a positive and steady upward trend as of now, and even though

there has been a small amount of volatility recently, overall it has been

steadily rising.

2. Twitter has 1.3k followers, telegram has a total of 6885, and 500+

   concurrent online users.

3. Currently, there are approximately 3,433 token-holding addresses, each

   with a relatively decentralized holding, and a relatively decentralized

   address.

Rank	Address	Quantity (Token)	Percentage
